

AFTERMARKET CHAINS

The Leaf Chain Available in the AL and BL Series

Strength

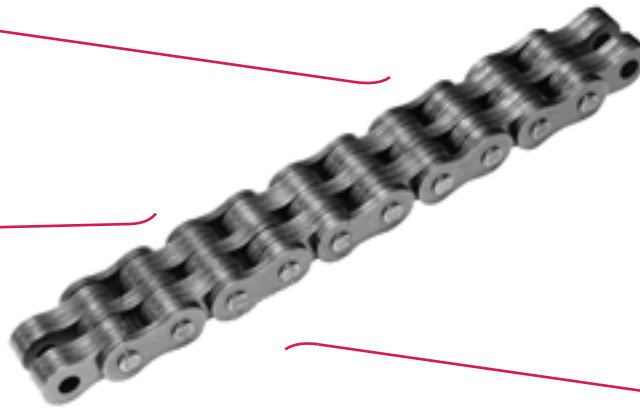

Tolerant to high levels of usage and fatigue

Design

The compact design allows it to serve its purpose

Life

Robust structure gives it a lengthy life

Resistance

Provides maximum resistance to wear and use

The leaf chain range of applications is almost endless. The most common of material handling equipment and usage, the leaf chain is employed worldwide for straddle carriers, forklift trucks and on major civil projects such as flood defence barriers

Link Plates

The plates of the chain are made from a unique steel that withstands sudden changes in weight and prevents breakage

Bearing Pins

Pins are also made from special steel which resists bending and warping, increasing the life of the chain

Inner Link Plates

Mobility of the interior plates are maximized reducing friction, and ensuring an efficient operation

Chain Pitch

The space between each component is maintained and assured, ensuring consistent protection

Available in numerous specifications

Both the AL & BL Series feature over twenty models, covering the full range of sizes, weights, and structure

Aftermarket chains are available for all purposes, from full-out conveyor systems to simple steel link setups, whatever the application or purpose, we assure that the right chain is available for you

■ **Industrial Chain Menu** ■

Slatband Conveyor Chain
Steel and plastic systems for bottling to packaging

Welded Steel Chain
Ideal for high working loads and drag applications

Modular Plastic Conveyor Belt
Multiple types and specifications, for all uses

Malleable Iron Chains
Adaptable yet durable for the long run

Conveyor Components
Metric and Imperial standards; from bearings to caps and seals

Coated Chains
Ideal for moisture rich environments, with strong corrosion resistance

Roller Chain
Available in multiple dimensions, from bulk reels to custom cuts

Specialty Chains
For the unique need, fully customizable specialty chains

We also offer knowledgeable staff to assist you and ensure that you find the correct chain for your application. Quality made, high resistance tolerance, and a long life ensure that you find the service you need for your job
