

CHARGERS, METERS & TESTERS

OEM Products

- DC Motors
- Gear Motors
- Traction Systems
- Linear Actuators
- Motor Controllers
- Scopics

We are able to offer a range of products for OEM. Contact us for your needs

Shelf Chargers

Our shelf chargers complete the spectrum for all possibilities and needs. Battery chargers, switching chargers, or low to high voltage and even special order chargers for your customized needs are our specialty

SCR Battery Chargers

CBN 1 Series

CBN 2 Series

- Fully automatic and microprocessor controlled
- Simple operation with basic connection
- Use with flooded lead acid cyclic batteries
- 12-36V & 12-25 amps

High Frequency Chargers

CBSW1-S Series

CBSW2-S Series

- Fully automatic and simple operation
- Battery information displayed in real time
- Programmable for various voltages and currents
- 12-48V & 4-30 amps

Compact Switching Chargers

CBHD1 12/24V-4

CBHD1 12/24V-8

- Microprocessor and mosfet technology
- Precise charging with virtually pure DC output
- Equipped with charging algorithms for flooded and gel/agm profiles

Special Order High Frequency Chargers

CBSW4-S Series

CBSW6-S Series

- Higher output chargers
- Made to specification for various uses
- 12-48V & 30-60 amps (CBSW4-S Series)
- 24-80V & 60-100 amps (CBSW6-S Series)

Battery Meters

Our battery meters like our other products cover the spectrum for all needs and applications, monitoring levels and micro levels for various batteries

Battery Monitor

BMS 52

- Programmable
- Based on actual read

Battery Level Meters

1-190 Series

1-187 Series

- High precision indicators of charge
- Feature multiple voltage capability
- LED indicators for optimal visibility
- Reverse polarity protection

Micro-Indicators

LBF18

LBF3Q

- Provides charge indication
- Allows for damage avoidance
- LED indicators for optimal visibility
- Insensitive to vibrations

Battery Testers & Equalisers

Battery testers are to test deep cycle batteries and it is crucial to maintain accuracy and safety especially when dealing with service issues. Our Alfabat units are some of the best in the industry

Alfabat Battery & Charger Testers

Alfabat

Alfabat Pro

- Integration with PC for professional reports
- Time analysis to provide actual capacity
- Microprocessor power & built-in algorithms
- Test multiple types of batteries

Battery Equaliser

A unique battery additive of aqueous state that readily mixes with battery electrolyte to treat hard sulfation that accumulates

- Increase available battery capacity
- Reduce charge time
- Reduce terminal corrosion
- Reduce gassing (water consumption)
